

Art Season

Materials:

Leaf
White Paper
Colors

Instructions on a different way to tracing or coping a object.

1. Children and parents - choose a leaf from a tree.
2. Place a white paper over the leaf.
3. Choose a color you would like and color the paper over the area of the leaf.
4. As you color on the paper you can see the leaf forming as a drawing or painting.

As kids create a work of art they can also learn about the different colors of leaves and why they change color from season to season.
